JOHNSON, DARRELL	THEFT BY RECEIVING STOLEN PROPERTY
TAYLOR-REED, CRYSTAL	FINANCIAL IDENTITY FRAUD
SIMMONS, JAMES	BENCH WARRANT

Play Time Basics

Babies explore with their hands, mouths and eyes, and enjoy toys they can touch or squeeze. Also, make sure you're providing your baby **supervised tummy time** on a daily basis while your baby is awake. This strengthens the neck and upper body muscles in case he or she rolls over during sleep.

RECOMMENDED TOYS:

- Floor activity centers
- Activity quilts
- Squeaky toys
- Soft dolls or stuffed animals without button noses and eyes

TOYS TO AVOID:

- Recalled toys
- Latex balloons
- Small, rounded or oval objects (like balls and marbles)
- Hard toys attached to car seat handles
- Toys with strings or cords
- Toys with lead or magnets

TIPS:

- Use **stationary activity centers**, instead of baby walkers. This keeps your baby in a safe location.
- Always **strap your baby** when using swings or bouncy chairs.
- **Before shopping for toys**, consider your baby's age, interest and skill level.
- **Read age and safety labels.** Toys that are labeled for children 3 years and older should be kept away from children under age 3.
- **Check old and new toys regularly for damage** that may cause small pieces to break off.

Young children have small airways. Take an empty toilet paper roll and put the small object in it. If it fits completely into the roll, don't let children under 3 play with it. The reason you use a toilet paper roll is because it's close in size to a young child's fully expanded throat.
