

UPDATE ON YORK PLACE S/D RESURFACING

The following is an update on the status of resurfacing with York Place S/D. Any updates affecting this schedule will be passed along as soon as I am advised of them.

- Yoko Lane, Yoni Drive, and York Drive have been approved for funding by the Georgia Department of Transportation for 2011 through their Local Maintenance Improvement Grant Program. The repaving of these streets is scheduled for this spring/summer.
- GDOT did not, however, approve the remaining streets within York Place Subdivision (Pinedale Lane, Pointer Way, Yucca and Zane) with this grant. Nevertheless, the Douglas County Transportation Department is looking at the possibility of paving those remaining streets with county funds. This, of course, is very tentative at this time due to the economic environment.

Ann Jones Guider, District 4 Commissioner
