Re: Professional Services for the Transportation Scoping Study for the Lee Road Extension Project PI-0015073  
Douglas County Board of Commissioners  
Solicitation No. 18-010

Dear Ladies and Gentlemen,

This **Addendum No.1**, to Douglas County's Request for Qualifications for Professional Services for the Transportation Scoping Study for the Lee Road Extension Project PI-0015073, is hereby issued to provide clarification to the Request in the following particulars only, and is made a part of the Request for Qualifications document.

1. Attached is the revised area classes for the existing Section 4 – Area Classes Tables in Exhibit I.
2. Is this project federally funded as well? **Yes.**
3. Is there any firm that is precluded from submitting on this project that has done some previous work? **As long as the firm is GDOT qualified we don't have anyone who is precluded from this work.**
4. Do you expect a lot of structural upper on this one? Do we need a bridge key team lead on this? **There are some crossings but not sure if they rise to the level of bridge; could be culverts. See revised Area Classes per item #1 above**
5. It shows as a bridge team lead in the requirements, can that be removed? **See revised Area Classes per item #1 above.**
6. Is it the County's intent to acquire a Right of Way or are you looking for a team to do it? **It depends on how this plays out. In the design phase we will make that determination.**
7. Will the ability to do Phase II weigh in to your evaluation of this proposal? **Yes.**
8. Is the stream crossing an impaired stream? **That determination is part of the scoping phase assessment.**
9. Is there a one week turn around on the short list on this project as well? **Yes.**
10. When is the planning study to be completed? **Before the end of this year.**
