Class

Course Name: Golf Cart and Gator Safety

Duration: 40 Minutes

Video Included: Yes

Instructor: TBD

Course Description: The purpose of this class is to teach safe operation of small utility vehicles. Golf carts, gators and side-by-sides are economical and useful in maintenance and emergency operations, but they can also be dangerous, resulting in over 15,000 injuries every year. Safety procedures when operating these vehicles will be discussed including, but not limited to:

- Professional and proper usage
- Always remain seated and use seat belts when equipped
- Slow down before and during turns
- Reduce speed, use extra care in inclement weather
- You must obey traffic signs and signals
- Pedestrian safety
- You must obey speed limits
- How to conduct a pre-trip inspection
