“An informed public is an engaged public!!!! The opportunities to interact with an informed public are not only needed but are limitless and fosters a sense of inclusion, not collusion. I am determined to foster an atmosphere where this information can be broadcast to a larger part of the counties citizens. I will advertise, survey, support and pursue any avenue, meeting, event or gathering that is interested in community development, economic development, engagement and the benefits of the 2016 SPLOST Program.”
