

Sec. 14-74. - Speed limits.

- (a) Pursuant to O.C.G.A. § 40-6-183, of the uniform rules of the road act, for local authorities to alter lawful speed limits, this section regulates speed limits within the county.
- (b) The board of commissioners hereby authorizes the use of speed detection devices by the county sheriff's department as deemed necessary to effectuate the orderly flow of traffic and for the safety and welfare of the public on such highways, streets and roads in the unincorporated areas of the county, as hereinafter designated.

The board of commissioners has determined on the basis of engineering and traffic investigation that in certain instances the maximum vehicle speed permitted under state law is greater than is reasonable and safe under conditions found to exist upon the highways, streets and roads of the county. Speed zones are therefore established as follows:
