

Lee Road Projects—Defined

Lee Road Widening – Department of Transportation

Scope:

- Widen existing portion of Lee Road from I-20 to Highway 92
- Widening to consist of four lanes, 5' sidewalk, and 8' path

Status: ROW acquisitions underway; timing unknown

Lee Road Extension – Department of Transportation

Scope:

- Extend Lee Road from its current terminus at Highway 92 south toward Bomar Road
- Establish an east-west connection to provide an alternative transportation route within the County

Status: Scoping phase underway

Small Area & Corridor Plan – Planning and Zoning Department

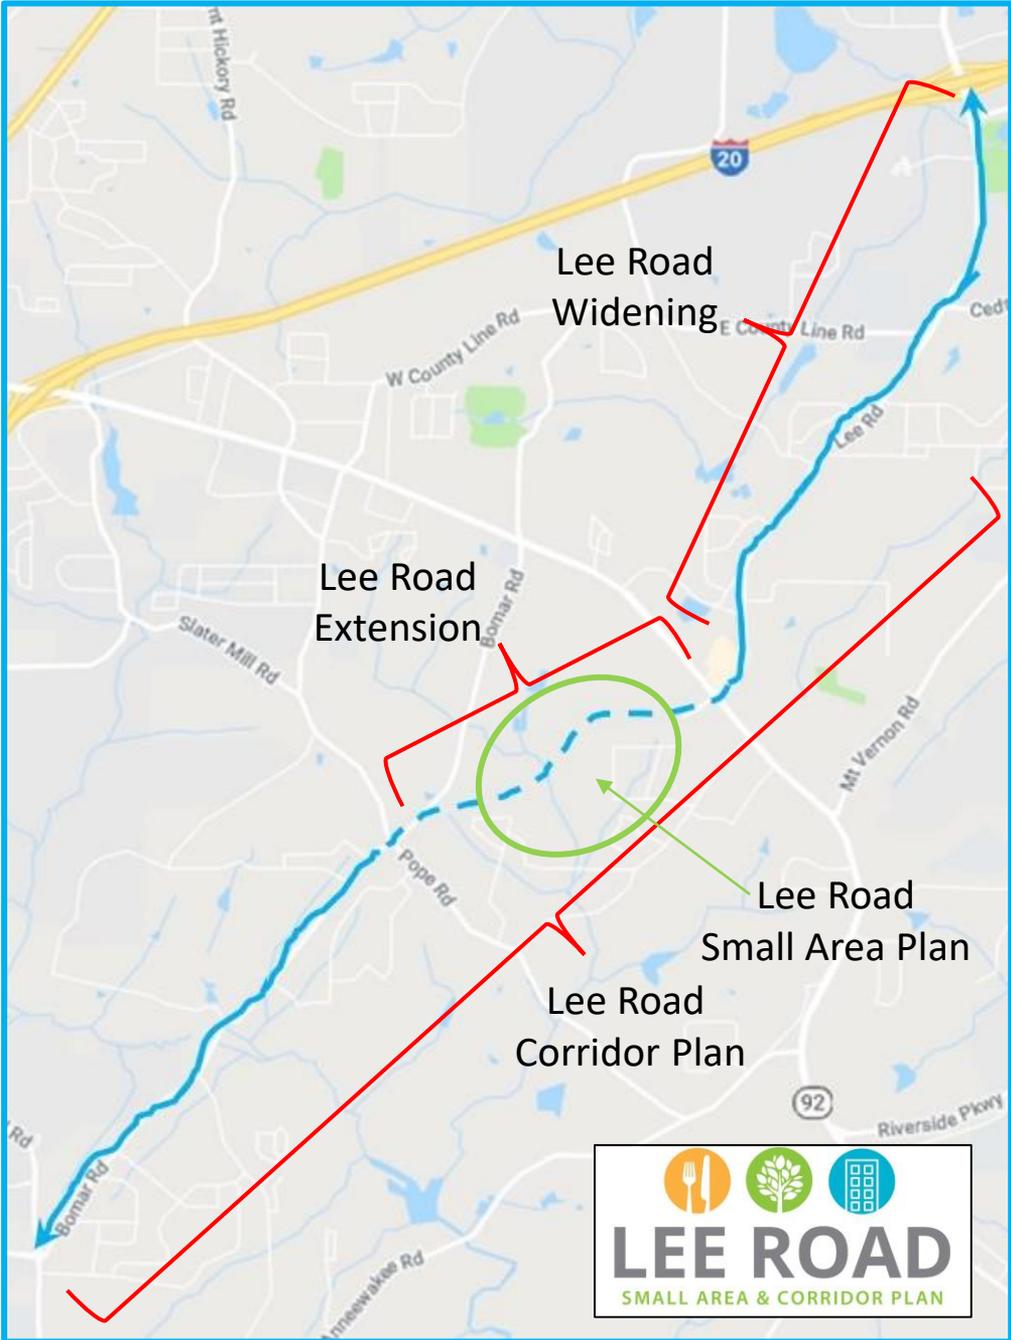

Scope:

- Managed by consultant, CPL
- Guide future development by anticipating development pressures created by road widening and extension projects
- Develop land use recommendations for small area corridor
- Develop vision for corridor and master planning area for next 20 years
- Recommend cross sections for full corridor
- Develop overall phasing plan
- Design conceptual alignment for corridor from I-20 to Chapel Hill Road
- Final deliverable – planning document with a work plan and visuals to aid legislative decisions

Status: Underway—anticipated completion by end of 2018

Lee Road Projects—Mapped

LEE ROAD
SMALL AREA & CORRIDOR PLAN

The logo features three circular icons: a fork and knife, a leafy plant, and a building. The text 'LEE ROAD' is in large, bold, grey letters, and 'SMALL AREA & CORRIDOR PLAN' is in smaller, green letters below it.
